

Introducing the

BECAUSE WE CAN'T CONQUER ALONE...

2 technologies now combined to deliver
amazing and long-lasting results

**One detoxifies
the deep subdermal
tissues**

and

**the other
breaks down
stubborn fat cells**

SILHOUET-TONE®

WHEN FUNCTIONALITY MEETS WITH TECHNOLOGY

The practical, award winning, body contouring device **P.R. CELL 2G** is now combined with the efficient **U SHAPE**. The vacuum & motorized rolling massage and ultrasound technology are now working together to provide effective and fast results for body shaping, circumferential loss, and cellulite reduction.

Combined with our unique protocol, this powerful duo provides a versatile and customizable solution for all body types and can be used to resolve a wide range of aesthetic preoccupations:

- Releases diet and exercise resistant fat pockets
- Diminishes the appearance of cellulite
- Defines the silhouette with circumferential losses
- Targets thick “orange peel” dimples, love handles and saddlebags
- Helps diminish the appearance of excessive bulges in the back & arms and unappealing weight carried in the abdomen.

HOW IT WORKS

STEP 1 – P.R. CELL 2G / Drain and Detoxify the Skin

The PR SHAPE TECHNIQUE begins with motorized rollers that are used to perform a deep suction massage known as “Palper-Rouler”, a renowned European technique which consists of a vigorous palpating and rolling massage.

By drawing the skin up and gently rolling it out, lymphatic blockage is released and the connective tissue that causes the appearance of cellulite is significantly reduce.

Large pneumatic treatment head
(For deeper problems and larger areas)

Medium pneumatic treatment head
(For milder problems)

Small treatment head
(For smaller areas)

BENEFITS

- Reduces the appearance of cellulite – orange peel and dimpling
- Releases lymphatic blockage
- Stimulates blood flow
- Detoxifies, decongests and oxygenates the skin – resulting in smooth and toned skin

FEATURES

- Ergonomic multidirectional treatment head that allows easy and precise moves
- 3 treatment heads to accommodate specific body parts and problems
- A variety of relaxing and energizing massages
- Electronic rhythm control

STEP 2 - U SHAPE / Break and Liquefy Fat Cells

To enhance the outcome of the procedure, the U SHAPE will produce ultrasound cavitation that will work on the body's fat cells by converting them into a liquid form. In this form, they will be naturally drained by the body's own filtration system, all in a non-invasive way.

BENEFITS

- Breaks fat cells
- Releases diet and exercise resistant fat pockets
- Works the deeper layers of the skin and promotes connective tissues tightening
- Defines the silhouette with circumferential losses

FEATURES

- Large soft-touch display buttons - quick and easy set-up
- Pre-programmed to reach different layers of the skin
- Adjustable intensities for maximum comfort
- Customizable treatments
- Detachable handpiece and cable conceive to change the treatment head quickly and easily

THE OUTCOME

Working together, the P.R. CELL 2G and the U SHAPE allow for a fully effective body contouring treatment that provides lasting results.

Following several sessions, client's comment on their overall improved appearance, smooth skin and general feeling of well-being.

Monthly follow-ups after an initial series of treatment will promote a continued change in the topography of the skin and a significant decrease in the circumference of hips and thighs.

The PR SHAPE TECHNIQUE is ideal for women who:

- Live a healthy lifestyle but still struggle with resilient stored fat
- Are predisposed to cellulite and have not achieved significant results with cosmetic products
- Have a normal Body Mass Index (BMI) but persistently suffer from cellulite dimples
- Would like risk-free and painless results without undergoing surgery.
- Experienced major hormonal fluctuations, resulting in dramatic figure change.

Considering 80% of women have cellulite and the other 20% think they do, the P.R. SHAPE TECHNIQUE is sure to please!

An investment worth while

By adding the P.R. SHAPE TECHNIQUE to your professional competences you will:

- Offer a great quality treatment at an affordable price
- Offer a natural and non-invasive solution to reduce stubborn fat cells
- Provide effective and fast results
- Contribute to an amazing process - helping your clients feel beautiful and confident again

EDUCATION & TRAINING

Silhouet-Tone believes that when releasing the newest technologies and advanced protocols to the industry, education is of the utmost importance. This is why Silhouet-Tone has committed to providing in-depth training for the P.R. Shape Technique. Consumers will have the opportunity to access education with the knowledgeable training department at Silhouet-Tone.
